## **Digital Class™**

### **Easiest-To-Use Writing Tablet**

Digital Class™ is an electromagnetic LCD writing tablet with powerful, easy-to-use presentation software that allows you to control your computer with an electronic pen. With the pen, you can touch the LCD screen to launch and control applications, capture images from any computer program, annotate, save and retrieve your work. You can even integrate it with leading control systems as a touch screen control panel.

Use Digital Class™ with a projector as an electronic whiteboard for writing and saving notes. The software can even record and playback your voice and pen strokes. Digital Class™ is an easy-to-use alternative for many electronic whiteboard applications. Use it as your one LCD display on lecterns and meeting room tabletops.

- Easy-to-use. Learn how in just 5 minutes!
- Includes whiteboard software and other templates
- Use with projector as an interactive, electronic whiteboard with NO shadows on the screen, NO projector beam in your eyes, NO turning your back on the audience, NO calibration, NO board size restriction
- Records and playbacks pen strokes & voice. Uses proprietary compression technology so one hour of recording typically uses about 10MB of space
- Easily annotate over any PC image and program; save, retrieve, print. Annotate over video played with the Windows Media Player or REAL player on Microsoft Windows XP
- 1024 x 768 resolution with scratch resistant tempered glass produces a very bright LCD image and clear viewing of computer icons
- 512 levels of pressure sensitivity, and Line Rendering Technology provides smooth lines
- Attractive metal-alloy casing, suitable for stand-alone use, on a podium, or flush mounting

Price: \$2,995 (Government & Education: \$2,495)
